

Integrated Strategies for Monitoring and Disseminating Adverse Childhood Experiences Data

Overview

This free, self-paced course from the Council of State and Territorial Epidemiologists (CSTE) shows you how to use data to understand trends in adverse childhood experiences (ACEs) and positive childhood experiences (PCEs) in your community, and how to share what you find with the people who can act on it.

About the Course

- Five self-paced lessons
- Free to everyone. You do not need to be a CSTE member.
- Available on [CSTE Learn](https://learn.cste.org), CSTE's online learning platform
- Course link: <https://learn.cste.org/main/learning/learn/courses/6fdb9ce-1bd8-4bb8-87b0-d12c48e78897>

Course Lessons

The first three lessons cover ways to strengthen ACEs and PCEs data. The last two cover how to share data with different audiences and build partnerships with the communities you serve.

- Lesson 1: Data Linkage Methods for ACEs
- Lesson 2: Triangulating ACEs Data
- Lesson 3: Leveraging Syndromic Surveillance to Monitor ACEs
- Lesson 4: Data Dissemination Strategies
- Lesson 5: Fostering Community Engagement

Create a CSTE Learn Account

You need a free CSTE Learn account to take the course.

1. Go to learn.cste.org.
2. Under "Select a group you would like to sign up for," click the CSTE logo.
3. Review the terms and conditions, then scroll down and enter your information. Click "Join."
4. Check your email for a verification message from no-reply@mob.cste.org. Open it and click "Verify email."
5. On the next page, click "Confirm email address."
6. Create your password on the login page. You can now log in anytime at learn.cste.org.

If You Created an Account Before June 2026

If CSTE Learn says an account already exists for your email, follow these steps:

1. Go to the login page and click the “magic link” button at the bottom.
2. Enter the email address tied to your existing account.
3. Open the email you receive and click “Sign in.”
4. Click the profile icon in the top right corner, then select “Preferences.”
5. Click “Update password” and enter a new password. You can now log in anytime with your email and new password.

NOTE: Building a comprehensive ACEs and PCEs data collection and monitoring system is an ongoing process. Start with what you have and progressively enhance your system as you gather more data and experience. Regularly reassess and adapt your strategy to improve the effectiveness of your ACEs prevention and intervention efforts.
