

# Policy Analysis

Identify and inventory any existing or proposed organizational, state-level, and local-level public policy specifically aimed at addressing TDV. Consider identifying and inventorying policies intended to address complementary issues.

## Question Set 1

01

**Which community organizations and partners have policies that support TDV prevention? Which lack policies that support TDV prevention?**

02

**Which community organizations and partners have policies that support healthy relationships? Which lack policies that support healthy relationships?**

**03**

To what extent are the identified policies theory-based and evidence-informed? Which policies include the most theory-based and evidence-informed policy elements? Which policies include the fewest?

**04**

What issues or problems are the policies designed to address? What are the goals of the existing policies? How do the policies contribute to TDV prevention?

**05**

Where is each policy in the policy process (e.g., development, implementation, evaluation)?

06

**Who is responsible for implementing, enforcing, monitoring, and evaluating the policies?**

07

**What evidence do you have that each policy is being implemented as intended and with good effect?**

08

**What are the costs of the policies?**

**09**

**What are the unintended consequences and benefits of each policy?**

**10**

**What is the reach of each policy?  
Who is affected by the policy?**

**11**

**Where are opportunities for your LHD or members of community advisory groups to inform the development, implementation, and evaluation of policies that support TDV prevention?**

12

**What were common difficulties that arose during the policy development, implementation, and evaluation processes and how were they addressed?**

---

13

**To what extent do the existing policies meet the expectations and needs of stakeholders?**

---
