

# Problem Identification

By examining the root causes of the problem, you can develop clear goals and identify appropriate policy strategies.

---

01

**Who collects data related to teen dating violence (TDV) and its risk and protective factors? Can you access that data?**

---

02

**How frequently do youth in your community report experiencing TDV?**

03

**To what extent do youth in your community report TDV-related risk and protective factors?**

04

**Do schools and other youth-oriented organizations perceive TDV as a problem in the community?**

05

**What is the health impact of TDV? What are other short-, mid-, and long-term consequences of TDV?**
